

Oh Lori

Alessi Brothers (1977)

I'd like to stay in love with you
 All summer and after fall
 I'll keep you warm through the winter
 Because I've noticed one thing
 This ain't no summer fling

I'd like to ride my bicycle with you
 On the handlebars
 You'd laugh and run away
 And I'd chase you through the meadow
 Without you I'd die
 Let's never say good-bye

Oh, Lori

You bring the spring, the summer, fall

Ooo and winter by the season

Oh, Lori (oh, Lori)

You make me feel as though I've been born again

Born again

You danced for me in your bare feet
 That mellow afternoon
 When we made love to each other
 And I'm loving you
 That's all I want to do
